

PT and BTS

Tensioner and Sealer for High-Strength Tenax® Polyester Strapping

PT Manual Tensioner

Superior performance

- Maximizes tension
- Increases productivity
- Provides unlimited strap take-up

Easy to operate

- Two strap loading
- Easy to position

Signode Distributor Sales
180 Hastings Drive
Buffalo Grove, IL 60089

BTS Battery Powered Sealer

Reduced packaging costs

- Eliminate costly metal seals and buckles
- Utilize cost effective High-Strength Tenax® Polyester Strapping

Maximum uptime

- High speed performance increases efficiency
- Faster and easier to use than metal seals and a sealer
- Microprocessor controlled battery charger improves battery life and performance

Superior performance

- Fast cycle time
- High-strength friction weld

Durable

All metal and alloy parts provide long-lasting, low-maintenance operation. Shock-resistant and water resistant.

Specifications:

For use with 5/8", 3/4", 1" and 1-1/4"
(16mm, 19mm, 25mm and 32mm)
High-Strength Tenax® Polyester Strapping

Weight: BTS—6.8 lbs. (3 kg); PT—4 lbs. (1.8 kg)
