

BXT-19

Battery Powered Combination Tool for High-Strength Tenax® Polyester Strapping

Easy operation

- Ergonomic design reduces operator fatigue
- Two-button process ensures simple operation

Maximum uptime

- High speed performance increases efficiency
- Simultaneous loading of both strap ends minimizes loading time

Improved battery power

- Output of up to 150 strapping cycles between recharges maximizes productivity
- Low battery level still supplies peak tension levels
- Battery charger discharges remaining power supply prior to recharging for maximum life
- Spare battery included

Specifications

Strapping: For use with 5/8" and 3/4" (16 mm & 19 mm) High-Strength Tenax® polyester strapping

Applies up to 750 lbs. of tension

Weight: 9.3 lbs. (4.2 kg)
