

BXT2-19

Battery Powered Combination Tool for Polyester Strapping

More strapping cycles between recharges

Easy operation

- Ergonomic design reduces operator fatigue
- Simple two-button operation

Versatile design

- Light or regular tension adjustment
- Semiautomatic and automatic settings with one button operation
- Accommodates polyester strapping
- Optional electrical cord adaptor for stationary applications

Low maintenance

- Brushless motor for less wear and longer life
- Innovative battery design reduces contact damage

Specifications

Strapping: For use with 5/8" and 3/4" (16mm and 19mm) polyester strapping

Tension rating: 260 to 880 lbs (1200 to 4000 N);
Light (soft) tension: 88 to 350 lbs (400-1600 N)

Weight: 9.3 lbs (4.2 kg)

Charger and two batteries included
