

PTC-19 and D-34

SIGNODE[®]

Heavy-Duty Feedwheel Tensioner and Sealer
for Hi-Strength Tenax[™] Polyester Strapping

PTC-19: The First Feedwheel Tensioner designed for Hi-Strength Tenax Polyester Strapping

- Unlimited Tension for Maximum Load Integrity & Strap Performance
- Built-in cutter increases efficiency
- Simultaneous loading of both strap ends minimizes loading time
- Heavy-duty aluminum bronze construction—the Signode difference

D-34 Sealer

- Long handles provide minimal sealing effort
- Produces seal joint with maximum frictional forces
- Use with Signode 34DY Heavy-Duty Grit Seals for Superior Joint Strength

Stronger Joint

Double crimp joint provides superior strength for loads subject to severe impacts
